

ROYAL PRINCE ALFRED
HOSPITAL

A tradition of excellence since 1882

13th April 2005

TO WHOM IT MAY CONCERN RE:

Dr Sandeep SINGH

Dr Singh has worked in the Cardiothoracic Surgical Unit at Royal Prince Alfred Hospital since the end of November 2004. He had intended to stay for one to two years and unfortunately for us his time has been cut short.

During his time in the unit he has shown himself to be a doctor of great dedication and application. Although his experience in the Intensive Care Unit was very limited on commencement in our unit, he has shown great application in learning the necessary skills in managing difficult problems in Intensive Care. His communication skills have been excellent and his judgement calls in the ICU have been very good.

In the operating theatre he has shown skill in technical tasks and application in learning new procedures. As a co-worker and colleague he is very easy to interact with and has been a pleasure to work with.

I would therefore have no hesitation in recommending him as a young surgeon of the highest order.

MATTHEW BAYFIELD

Head of Department
Cardiothoracic Surgical Unit
Royal Prince Alfred Hospital
